

MARITIME

PSC EXCELLENCE SUPPORT

We support you in improving PSC performance using our extensive technical and regulatory knowledge

DNV GL Maritime Advisory offers tailored PSC excellence support to ship owners and operators to further improve their performance as well as reduce the time needed and cost of PSC inspections.

The challenge

The PSC regime from port state authorities is continuously increasing. This is making it harder for ship owners to stay updated on the latest developments, to demonstrate compliance with the requirements and effectively take the correct actions. As the PSC inspections are increasing in frequency in some ports, they putting more pressure on the superintendents and crew.

Our solution

We offer tailored services to shipping companies to further improve their performance while reducing the time and cost spent due to PSC inspections:

- Pre-survey inspections
- PSC training for the crew and superintendents
- A systematic approach to control the vessel's PSC performance
- Preparation to comply with the latest developments in local PSC regime
- Analysis and benchmarking against our database of PSC findings
